# CARBON SKATE V10

The 4KAAD CARBON SKATE V10 is a performance Roller ski for training at highest level.  
We have developed the Skate Frame and wheels with some of the best XC  
and Roller ski athletes in the World.

The unique carbon frame is produced in a special 3D molded process to create the best and lightest  
roller ski frame we ever built.

The Alloy wheels are produced with hot molded carbon rubber wheels for perfect grip on asphalt in  
every weather condition. [ speed 2, med-slow ]

Color: blue -black -white

STEP 1

STEP 2

STEP 3

## CHANGE -IT

The new CHANGE-IT basket system by 4KAAD makes cross country easy for every skier, WC athlete and but as well marathon and fitness level. The patented C-IT system offers for all poles the possibility to change baskets just with your hands. The fixing ring for the shaft positions the basket in the correct position. After this you need to clip in the basket and lock it. 4KAAD offers different size of baskets and a roller ski tips for the C-IT system

T Shirt black Brand XS- XXL  
100% Premium Cotton

T Shirt white Brand XS- XXL  
100 % Premium Cotton

It is one thing for the 4KAAD company to guarantee what it makes. It is quite another for it to guarantee what others make. But that is exactly what we do. Working hand-in-hand with our manufacturing customers and supplier, we assess each product style. And it's not just the finished 4KAAD product that's tested but the fabrics, stitching, sealing and linings must meet performance standards. Materials are tested in 4KAAD labs and prototypes are rigorously field tested in actual conditions in Norway.
